Welcome to osFinancials

If you've read anything at all about accounting software, you'll probably know at least three things: Financial administration is a must for every organisation to do business, accounting software can be really, I mean *really*, complicated and lastly accounting software is absolutely, outrageously, often *unaffordably* expensive.

osFinancials is set to change all that ... osFinancials is different from the normal models for accounting software. For a start, it's not complicated. osFinancials has been developed for the masses. It's licensed under the GNU/GPL license, easy to install and administer and reliable.
